ABSTRACT

This document on Department of Health, Education, and Welfare obligations to institutions of higher education provides a detailed report on funds obligated during Fiscal Year 1973 to institutions of higher education by constituent agencies of the DHEW. The tables present data three ways for each DHEW agency: (1) alphabetically by census region, state, and institution; (2) by descending order of rank according to the amount obligated to each institution; and (3) type of obligation. Guidelines were developed to provide a meaningful perspective of DHEW support for a wide range of activities related to science, health and education performed in institutions of higher education. INTRODUCTION

Type of Data Reported

This publication on DHEW obligations to institutions of higher education provides a detailed report on funds obligated during Fiscal Year 1973 to institutions of higher education by constituent agencies of the DHEW. The tables present the data three ways for each DHEW agency:

1. alphabetically by census region, state, and institution,
2. by descending order of rank according to the amount obligated to each institution, and
3. by type of obligation.

Guidelines for the Report

Guidelines were developed for this report to provide a meaningful perspective of DHEW support for a wide range of activities related to science, health, and education performed in institutions of higher education. The guidelines are compatible with, although not identical to, those developed by the now defunct Interagency Task Force on Statistics of the FCST Committee on Academic Science and Engineering. The guidelines are described below:

1. *Obligations.* This reflects actual obligations made during Fiscal Year 1973 regardless of when the funds were authorized for or received by a department or agency and regardless of when such funds were to be spent by the recipient. Credits or other adjustments made subsequent to the date of this report may result in revised figures for individual institutions reflecting annual adjustments for the same year made at a later date. The obligations are reported in thousands of dollars, except in those cases where an amount of less than $500 was obligated in a particular category. In these cases, $1,000 was reported so that an accurate accounting could be made of the number of institutions receiving support. In cases of interagency transfers of funds, the agency which actually obligated the funds to an institution of higher education reported the obligation.

2. *Research and Development.* This includes obligations for research and development as defined in "Federal Funds for Research, Development, and Other Scientific Activities" except that the NIH awards for the general support of science are reported separately (see Item 4c). Obligations for R&D are divided into two categories:

   a. Support for Research Projects through Grants and Contracts.

   b. Support for Research Resources. This includes grants and contracts for strengthening research resources, such as clinical research centers, primate and animal research centers, and regional educational research laboratories. It also includes obligations for construction, training, and related activities unless they are separately funded explicitly as construction, training, etc.

3. *Obligations for R&D Plant.* This includes obligations for the research and development plant or R&D facilities and fixed equipment as defined in "Federal Funds."

4. *All Other Science-Related Activities.* This includes obligations for all other activities that are science-related and are not included in Item 2, "Research and Development," or Item 3, "R&D Plant." It includes the following types of science-related activities:

   a. *Training Grants.* Obligations for training grants in science-related fields of study and advanced study in professional fields of study, such as education, social work, and the health professions (see Item 5a).

b. *Fellowships.* Obligations for fellowships in science-related fields of study and advanced study in professional fields of study, such as education, social work, and the health professions (see Item 5a). The total amounts of such awards are reported for the institution at which the recipient plans to do his research and/or study unless an amount is paid separately to an individual's "home institution" in which case it is reported for the "home institution."

c. *General Support for Science.* This category is limited to NIH awards for the general support of science, such as the general research support grants, the biomedical science support grants, and the health sciences advancement awards. Formula grants to schools of public health are reported under Item 5c.

d. *All Other Science-Related Construction.* This includes all science-related construction except R&D plant.

e. *All Other Science-Related Activities.* This includes all other separately organized or separately funded science-related activities, such as science teaching institutes, course content improvement projects in science fields, operation of scientific and technical information systems, e.g., MEDLARS regional search centers, and collection of general-purpose statistics.

5. *Obligations-for Nonscience Activities.* This includes obligations to institutions of higher education that represent direct funding, exclusive of loans, for the following categories of nonscience activities:

a. *Training and Fellowships in Nonscience Fields.* Obligations for teaching and training grants, fellowships, scholarships, and work-study awards in nonscience fields, and for work leading to the bachelor's or first professional degree in professional fields, such as education, social work, and the health professions. NDEA fellowships are distributed between science-related and nonscience activities on the basis of the recipient's field of study.

b. *Construction.* This includes all obligations for construction awards to institutions of higher education under the Hill-Burton, HPEA, and HEFA programs unless the entire facility is science-related, e.g., graduate science buildings funded under Title II of HEFA.

c. *Child Support.* This includes nonscience support for the educational, social and physiological development of children, including the headstart program, maternal and child health services, child care services, etc.

d. *Health Services.* This includes support for the delivery of health services, such as health maintenance organizations, community health centers, comprehensive health care centers, drug abuse and alcoholism centers, and community mental health centers.

e. *Institutional Support.* This includes general institutional nonscience support for institutions of higher education and health professional schools, including institutional grants to medical and other health professional schools authorized under the Comprehensive Health Manpower Training and Nurse Training Acts of 1971, and including capitation grants, start-up assistance, and financial distress grants; basic and special improvement grants under the Health Training Improvement Act of 1970; formula grants to schools of public health; Title III awards (HEA of 1965, as amended) for strengthening developing institutions and other programs of assistance to black institutions; and all other nonscience institutional assistance awards.

f. *Other Nonscience.* This includes all other obligations to institutions of higher education for nonscience activities.

6. *Loans.* This includes student aid loans (HPEA, NDEA, Cuban Student Loans) and construction loans (HEFA, Title III).

Listing of Institutions

The institutions are listed alphabetically by state and institution within census region. To locate a specific institution, first look for the census region, then the state, and finally for the alphabetically listed institution within that state. The census regions and states are listed below:

New England
- Connecticut
- Maine
- Massachusetts
- New Hampshire
- Rhode Island
- Vermont

East North Central
- Illinois
- Indiana
- Michigan
- Ohio
- Wisconsin

West North Central
- Iowa
- Kansas
- Minnesota
- Missouri
- Nebraska
- North Dakota
- South Dakota

South Atlantic
- Delaware
- District of Columbia
- Georgia
- Florida
- Maryland
- North Carolina
- South Carolina
- Virginia
- West Virginia

East South Central
- Alabama
- Kentucky
- Mississippi
- Tennessee

Middle Atlantic
- New Jersey
- New York
- Pennsylvania

West South Central
- Arkansas
- Louisiana
- Oklahoma
- Texas

Mountain
- Arizona
- Colorado
- Idaho
- Montana
- Nevada
- New Mexico
- Utah
- Wyoming

Pacific
- Alaska
- California
- Hawaii
- Oregon
- Washington

Territories and Possessions
- Canal Zone
- Guam
- Puerto Rico
- Virgin Islands
